IAS/OAS DAILY QUIZ No. 532 (14.01.2020)

 Consider the following statements regarding the ethics committee of the Parliament: Ethics Committee of the RajyaSabha, the first of its kind for legislatures in the country, was set up in 1997 to oversee the moral and ethical conduct of the members' internal self-regulatory mechanism. Any person may make a complaint to the Committee regarding alleged unchical behaviour or breach of Code of Conduct by a member or alleged incorrect information of a member's interests. The punishments for unchical behaviour may include censure, reprimand, suspension from the House for a specific period or any other sanction determined by the Committee. Which of the above statements are rure?	V +1	Exclusive Coden	ing for drsc/orsc/rsc											
 Ethics Committee of the RajyaSabha, the first of its kind for legislatures in the country, was set up in 1997 to oversec the moral and chical conduct of the members' internal self-regulatory mechanism. Any person may make a complaint to the Committee regarding alleged unethical behaviour or breach of Code of Conduct by a member or alleged incorrect information of a member's interests. The punishments for unethical behaviour may include censure, reprimand, suspension from the House for a specific period or any other sanction determined by the Committee. Which of the above statements are true? 1 & 2 only 2 Consider the following pairs of endangered species in India and their corresponding habitat locations: 1) Great Indian bustard: Pench NP 2) Dangul: Dachigam NP 3) Sangai: Keibull.amjao NP 4) Dugong: New Moore islands Which of the above spairs are correctly matched? 3, 1, 2 & 3 only 5. Centre aims to develop India as a world-class \$100-billion biomanufacturing hub by 2024. Which of the following statements are implicitly contributing to this target? 1) As India steps up its renewable energy output, storage options become increasingly significant for grid management. That throws up the need for developing new battery types which are based on earth-abundant and environmentally-bening materials. 2) India needs to explore, map and responsibly harness the vast oceanic resources of water, energy, food and minerals. This requires developing deep strengths in manned submersibles, deepsea mining systems and autonomous underwater vehicles. Choose the correct option: a) I only b) 2 only c) Both 1 & 2 d) All of these 1) As the sector has the capacity to boost the economy, foreign exchange earnings and provide a large number of jobs at every le	1	Constitution for	11	1	41. 1	-641- D-41								
to oversee the moral and ethical conduct of the members' internal self-regulatory mechanism. 2) Any person may make a complaint to the Committee regarding alleged unethical behaviour or breach of Code of Conduct by a member or alleged incorrect information of a member's interests. 3) The punishments for unethical behaviour may include censure, reprimand, suspension from the House for a specific period or any other sanction determined by the Committee. IAS/OAS DAILY QUIZ No. 532 (14.01.2020)

- 8. Consider the following statements regarding India's current /capital account deficit status:
 - 1) India's current account deficit (CAD) excess of imports over exports contracted to 0.9 per cent of its GDP compared to a deficit of 2.9 per cent of GDP, in the same period of year ago due to slowdown in imports and lower oil prices.
 - 2) A current account deficit indicates that a country is exporting more than it is importing.
 - 3) In the capital account, the overall surplus declines to \$12 billion compared to inflows worth \$16.3 billion in the same period a year ago. This was largely due to a slowdown in net inflows through foreign investment and loans during the quarter.

Which of the above	e statements stands true?		
a) 1 & 2 only	b) 2 & 3 only	c) 1 & 3 only	d) All of these

- 9. Which of the following statements regarding ocean acidification statistics stands true?
 - 1) Ocean acidification that is caused due to uptake of carbon-dioxide has changed the chemical composition of the seawaters.
 - 2) According to the United Nations, over the past 30 years, acidity has increased by 26% since pre-industrial times
 - 3) The marine fish stocks that are at biologically sustainable levels have declined from 90% (1974) to 99.9% (2015).

Choose the correct option:

- a) 1 & 2 only b) 2 & 3 only c) 1 & 3 only d) All of these 0. According to the recent census at the Bhitarkanika National Park, the population of salt w
- 10. According to the recent census at the Bhitarkanika National Park, the population of salt water (or estuarine) crocodiles have increased to 1,757 as compared to 1,742 in 2018. The above said national park is located in which of the following Indian states?
- a) Rajasthan b) Odisha c) Telangana d) Gujarat 11. Which of the following statements regarding the Hindu-Kush region stands true?
 - 1) It runs northeast to southwest and divides the valley of the Amu Darya (the ancient Oxus River) to the south from the Indus River valley in the north.
 - 2) It contains vast cryospheric zones, is also the world's largest store of snow and ice outside the polar region, and the source of 10 major rivers.
 - 3) It was through the high passes of the Hindu Kush in about 1500 BC that invaders from Central Asia brought their Indo-European language—a forerunner of the Indo-Iranian languages spoken throughout the region today.

Choose the correct option:

- a) 1 & 2 only b) 2 & 3 only c) 1 & 3 only d) All of these
- 12. Which of the following pairs of food/cash crops and their largest production states in India are correctly matched?

1) Rice : Punjab 2) Spices : West Bengal 3) Cotton : Gujarat 4) Sugarcane : Uttarpradesh 5) Pulses : Madhya Pradesh

Choose the correct option:

a) 1, 2 & 4 only b) 3, 4 & 5 only c) 2, 4 & 5 only d) All of these

- 13. Scientists have developed a new method for detecting oxygen in exoplanet atmospheres that may accelerate the search for life. Which of the following statements regarding the same stands true?
 - 1) If an exoplanet is too close to its host star or receives too much star light, the atmosphere becomes very warm and saturated with water vapor from evaporating oceans.
 - 2) When oxygen molecules collide with each other, they block parts of the infrared light spectrum from being seen by a telescope. By examining patterns in that light, they can determine the composition of the planet's atmosphere.
 - 3) Around 90% of the exoplanets contains oxygen and nitrogen gases only.

Choose the correct option:

a) 1 & 2 only b) 2 & 3 only c) 1 & 3 only d) All of these

- 14. With respect to the newly formed National Stock Exchange (NSE) Knowledge Hub, which of the following statements stands true?
 - 1) The NSE Knowledge Hub will enhance skills and help academic institutions in preparing future-ready talent for the financial service industry.
 - 2) AI and Machine Learning will contribute USD 1 trillion by 2035 and this is a good beginning by NSE to tap the potential of AI and use it as a tool to create a workforce in the BFSI sector in India.
 - 3) India has developed itself as the second largest fintech hub in the world.
