

GOVERNANCE**Improving Employability of the Youth**

Recently, the Ministry of Labour and Employment and UNICEF have signed a Statement of Intent to improve employment outcomes for the youth in India. According to Census 2011, every fifth person in India is a youth (15-24 years). UNICEF is a special program of the United Nations (UN) devoted to aiding national efforts to improve the health, nutrition, education, and general welfare of children. 'The State of the World's Children' is UNICEF's flagship report.

Key Points**Purpose of this Collaboration:**

- It intends to provide a platform for cooperation between the Ministry and UNICEF to leverage the existing mainstreamed initiatives of both parties in select states.
- This will co-create and implement solutions at scale to tackle the employment and skilling challenges for adolescents and youth in India, with focus on vulnerable populations. Vulnerable Populations include young people with special needs, youth leaving care institutions, migrant youth, victims of child labour, violence, child marriage and trafficking and like other matter.

Areas of Collaboration:

1. Connecting young people with employment opportunities.
2. Upskilling of young people on 21st century skills including life skills, financial skills, digital skills, vocations skills etc.
3. Strengthening National Career Service (NCS).
4. Support in Job forecasting by exploring the gaps.
5. Supporting direct dialogue and the establishment of a feedback mechanism between youth and policy stakeholders.

National Career Service (NCS):**About:**

- It was launched in 2015, within the umbrella of the e-governance plan.
- It is a one-stop solution that provides a wide array of employment and career related services to the citizens of India.

Nodal Ministry: Ministry of Labour & Employment.

Three Pillars: The NCS project reaches out to the people of this country through its three essential pillars i.e.

1. A well designed ICT based portal which is NCS portal,
2. Country wide set up of Model Career Centers and
3. Interlinkage with all the states through employment exchanges.

UNICEF's Initiative (YuWaah):

- The India chapter of Generation Unlimited (GenU) – YuWaah – was born in 2018.
- GenU is a global multi-stakeholder platform that aims to prepare young people to transition to productive work and active citizenship.
- In India, by 2030, YuWaah aims to ensure, the following:
 1. Build pathways for 100 million young people to aspirational economic opportunities.
 2. Facilitate 200 million young people to gain relevant skills for productive lives and the future of work.
 3. Partner with 300 million young people as changemakers and create spaces for developing their leadership.

Other Initiatives Taken to Improve Employability of the Youth

- **National Youth Policy-2014** provides a holistic Vision for the youth of India which is “to empower the youth of the country to achieve their full potential, and through them enable India to find its rightful place in the community of nations”.
- **Prime Minister's Employment Generation Programme (PMEGP):** It was introduced in 2008 for generation of employment opportunities through establishment of micro enterprises in rural as well as urban areas. It is administered by the Ministry of Micro, Small and Medium Enterprises.
- **Pradhan Mantri Mudra Yojana (PMMY):** It was launched in 2015 for providing loans up to Rs. 10 lakh to the non-corporate, non-farm small/micro-enterprises. It has a focus on self-employment.
- **Pradhan Mantri Rojgar Protsahan Yojana (PMRPY):** It has been launched by the Ministry of Labour and Employment for incentivising employers for promoting employment generation. The Government is paying the entire employer's contribution towards EPF and EPS for all eligible new employees for all sectors for 3 years.

- Increased public expenditure on schemes like Mahatma Gandhi National Rural Employment Guarantee Scheme (MGNREGA), Pt. Deen Dayal Upadhyaya Grameen Kaushalya Yojana (DDU-GKY) scheme run by Ministry of Rural Development and Deendayal Antyodaya Yojana- National Urban Livelihoods Mission (DAY-NULM) run by Ministry of Housing & Urban Affairs.
- Other Flagship Programmes which have the Potential to Generate Employment:** Make in India, Digital India, Swachh Bharat Mission, Smart City Mission, Atal Mission for Rejuvenation and Urban Transformation, Housing for All, Industrial corridors, etc.

2. Inland Vessel Bill 2021

Recently, the Union Cabinet approved the Inland Vessels Bill, 2021, which will replace the Inland Vessels Act, 1917 after passing in Parliament. The Bill will regulate safety, security and registration of inland vessels.

Key Points

Features of the Bill:

- A key feature of the Bill is a unified law for the entire country, instead of separate rules framed by the States. The certificate of registration granted under the proposed law will be deemed to be valid in all States and Union Territories, and there will be no need to seek separate permissions from the States.
- The Bill provides for a central database for recording the details of vessel, vessel registration, crew on an electronic portal.
- All non-mechanically propelled vessels will also have to be enrolled at the district, taluk or panchayat or village level.
- It enlarges the definition of 'inland waters', by including tidal water limit and national waterways declared by the Central Government.
- It also deals with pollution control measures of Inland Vessels. This Bill directs the Central Government to designate a list of chemicals, substances, etc. as pollutants.

Inland Waterways:

About:

- India has about 14,500 km of navigable waterways which comprise of rivers, canals, backwaters, creeks, etc.
- As per the National Waterways Act 2016, 111 waterways have been declared as National Waterways (NWs).
- 1. NW-1: Ganga-Bhagirathi-Hooghly River System (Prayagraj-Haldia) with length 1620 km is the longest National Waterway in India.
- 2. The Inland Waterways Authority of India (IWAI) is implementing the Jal Marg Vikas Project (JMVP) for capacity augmentation of navigation on the Haldia-Varanasi stretch of Ganga (part of NW-1) with the technical and financial assistance of the World Bank.

Utilization:

- About 55 million tonnes of cargo is being moved annually by IWT (Inland Water Transport), a fuel-efficient and environment-friendly mode. However, freight transportation by waterways is highly underutilized in the country as compared to developed countries.
- Its operations are currently restricted to a few stretches in the Ganga-Bhagirathi-Hooghly rivers, the Brahmaputra, the Barak river (northeastern India), the rivers in Goa, the backwaters in Kerala, inland waters in Mumbai and the deltaic regions of the Godavari - Krishna rivers.
- Besides these organized operations by mechanized vessels, country boats of various capacities also operate in various rivers and canals and substantial quantum of cargo and passengers are transported in this unorganized sector as well.
- In India, IWT has the potential to supplement the overburdened railways and congested roadways. In addition to cargo movement, the IWT sector also provides a convenient function in related activities such as carriage of vehicles {on Roll-on-Roll-off (Ro-Ro) mode of cross ferry} and tourism.

Steps Taken:

- The waterways will also be linked to the eastern and western Dedicated Freight Corridors (DFCs), as well as the Sagarmala Project, which aims to promote port-led direct and indirect development.
- Further, the provisions of the Indo-Bangladesh (Sonamura-Daudkandi) and Indo-Myanmar protocol (Kaladan) permitting transshipment of goods through Bangladesh and Myanmar waters – which, in many cases, are a continuum of India's inland waterways – enabling quicker shipments and deeper market penetration in India's North East.

Inland Waterways Authority of India:

- It came into existence on 27th October 1986 for development and regulation of inland waterways for shipping and navigation.
- It primarily undertakes projects for development and maintenance of IWT (Inland Water Transport) infrastructure on national waterways through grants received from the Ministry of Shipping.
- It is headquartered at Noida (Uttar Pradesh).

ECONOMY

World Competitiveness Index 2021

According to the World Competitiveness Yearbook (WCY), India maintained 43rd rank on the annual World Competitiveness Index. The World Competitiveness Index is a comprehensive annual report and worldwide reference point on the competitiveness of countries.

Key Points

About:

- **Published by:** WCY was first published in 1989 and is compiled by the Institute for Management Development (IMD).
- 1. In 2021, the IMD examined the impact of Covid-19 on economies around the world.
- 2. It provides extensive coverage of 64 economies.
- **Factors:** It measures the prosperity and competitiveness of countries by examining four factors (334 competitiveness criteria):
 1. Economic performance
 2. Government efficiency
 3. Business efficiency
 4. Infrastructure

Top Global Performers:

- **Europe:** The European countries display regional strength in world competitiveness ranking with Switzerland (1st), Sweden (2nd), Denmark (3rd), the Netherlands (4th).
- **Asia:** The top-performing Asian economies are, in order, Singapore (5th), Hong Kong (7th), Taiwan (8th) and China (16th). Singapore was 1st in the 2020 World Competitiveness Index.
- **Others:** The UAE and the USA remain in their same spots as last year (9th and 10th, respectively).

India's Performance:

- **In Comparison to BRICS Nations:** Among the BRICS nations, India ranked second (43rd) after China (16th), followed by Russia (45th), Brazil (57th) and South Africa (62nd).
- **Performance on Four Factors:** Among the four indices used, India's ranking in government efficiency increased to 46 from 50 a year ago, while its ranking in other parameters such as economic performance (37th), business efficiency (32th) and infrastructure (49) remained the same.
- **Improvements in Government Efficiency:** Mostly due to relatively stable public finances. Despite difficulties brought by the pandemic, in 2020, the government deficit stayed at 7%. The Government also provided support and subsidies to the private companies.
- **India's Strengths:** India's strengths lie in investments in telecoms (1st), mobile telephone costs (1st), ICT services exports (3rd), remuneration in services professions (4th) and terms of trade index (5th).
- **India's Weaknesses:** India's performance is the worst in sub-indices such as broadband subscribers (64th), exposure to particulate pollution (64th), human development index (64th), GDP per capita (63rd) and foreign currency reserves per capita (62nd) among others.

Analysis:

- **Qualities of Top Performers:** The qualities such as investment in innovation, digitalisation, welfare benefits, diversified economic activities, supportive public policy and leadership, resulting in social cohesion have helped countries better manage the crisis and thus ranking higher in competitiveness.
- **Addressed Unemployment:** Competitive economies succeeded in transitioning to a remote work routine while also allowing remote learning.
- **Public Spending:** The effectiveness of key public spending, such as public finance, tax policy and business legislation, are seen to relieve the pressure on the economies hit by the Covid-19.

Recent Steps Taken by India to Increase its Competitiveness :

- The government has introduced the Production-Linked Incentive (PLI) Scheme in various sectors for enhancing India's manufacturing capabilities and exports.
- The five pillars of 'Atmanirbhar Bharat Abhiyan (or Self-reliant India Mission)' are - Economy, Infrastructure, System, Vibrant Demography and Demand.

Way Forward

- As Michael Porter has stated, a nation that ensures balance between economic and social progress can enhance its productivity, followed by creating competitiveness and thus, prosperity.
- Therefore, it is necessary to create an environment which not only pushes the businesses to compete successfully in local as well as international markets, but ensures that the average citizen's standard of living also improves.
- Governments need to provide an environment characterized by efficient infrastructures, institutions and policies that encourage sustainable value creation by the enterprises.

POLITY

Controversial Role of Governors

Recently, the West Bengal Chief Minister described the Governor of the state as the central government's own person. The Chief Minister, including several MPs, have written to the President of India demanding the withdrawal of the Governor.

Key Points

Constitutional Provisions Related to Governor:

- Article 153 says that there shall be a Governor for each State. One person can be appointed as Governor for two or more States. A Governor is appointed by the President and is a nominee of the Central Government.
- It is stated that the Governor has a dual role. He is the constitutional head of the state, bound by the advice of his council of ministers (CoM). He functions as a vital link between the Union Government and the State Government.
- Articles 157 and 158 specify eligibility requirements for the post of governor.
- Governor has the power to grant pardons, reprieves, etc. (Article 161).
- There is a CoM with the CM at the head to aid and advise the Governor in the exercise of his functions, except some conditions for discretion. (Article 163)
- Governor appoints the Chief Minister and other Ministers (Article 164).
- Governor assents, withholds assent, or reserves the bill for the consideration of the President passed by the Legislative Assembly (Article 200).
- Governor may promulgate the Ordinances under certain circumstances (Article 213).

Controversies Related to Governor's Role:

- **Abuse of Power by the Centre:** There are numerous examples of the Governor's position being abused, usually at the behest of the ruling party at the Centre. The process of appointment has generally been the cause behind it.
- **Biased Ideology:** In several cases, politicians and former bureaucrats identifying with a particular political ideology have been appointed as the Governors by the central government. This goes against the constitutionally mandated neutral seat and has resulted in bias, as appears to have happened in Karnataka and Goa.
- **Puppet Rulers:** Recently, the Governor of Rajasthan has been charged with the violation of the model code of conduct. His support of the central ruling party is against the spirit of non-partisanship that is expected from the person sitting on constitutional posts. Due to such incidents, negative terms like an agent of the Centre, Puppet and rubber stamps are used to describe a governor of the state.
- **Favouring a Particular Political Party:** Governor's discretionary powers to invite the leader of the largest party/alliance, post-election, to form the government has often been misused to favour a particular political party.
- **Misuse of Power:** A Governor's recommendation for President's Rule (Article 356) in a state has not always been based on 'objective material', but on political whim or fancy.

Related Recommendations

- **On Appointment and Removal of Governor:** The "Punchhi commission - 2010" recommended that there should be a provision for the impeachment of the governor by the state legislature. The state chief minister should have a say in the governor's appointment.

- **On the Use of Article 356:**
 1. The "Punchhi commission - 2010" recommended that Articles 355 & 356 be amended.
 2. The Sarkaria Commission (1988) recommended that Article 356 should be used in very rare cases when it becomes unavoidable to restore the breakdown of constitutional machinery in the State.
 3. Recommendations have also been given by the Administrative Reforms Commission (1968), Rajamannar Committee (1971) and Justice V.Chelliah Commission (2002).
- **On Dismissal of State Government under Article 356:**
 1. S.R. Bommai Judgment (1994): The case put an end to the arbitrary dismissal of State governments by a hostile Central government.
 2. The verdict ruled that the floor of the Assembly is the only forum that should test the majority of the government of the day, and not the subjective opinion of the Governor.
- **On Discretionary Powers:** The Supreme Court in the Nabam Rebia judgment (2016) ruled that the exercise of Governor's discretion Article 163 is limited and his choice of action should not be arbitrary or fanciful.

Way Forward

- **Governor's Discretion Should Be Only Her Discretion:** For the smooth functioning of government, it is equally essential that the governor must act judiciously, impartially and efficiently while exercising his discretion and personal judgment.
- **Strengthening of Federalism:** In order to check misuse of the office of governor, there is a need to strengthen federal setup in India. In this regard, the Inter-State council and the role of Rajya Sabha as the chamber of federalism must be strengthened.
- **Reform the Method of Appointment of Governor:** The appointment can be made from a panel prepared by the state legislature and actual appointing authority should be the Inter-state Council, not the central government.
- **Code of Conduct for Governor:** This 'Code of Conduct' should lay down certain 'norms and principles' which should guide the exercise of the governor's 'discretion' and his powers which he is entitled to use and exercise on his judgment.

SCIENCE & TECHNOLOGY

China's Shenzhou-12 Manned Mission

Recently, a Chinese spaceship "Shenzhou-12" carrying a three-person crew docked with China's new space station module Tianhe-1. This has come after the launch of the Tianzhou-2 cargo spacecraft, which carried vital supplies for the space station.

Key Points

About Mission:

- The Shenzhou-12 craft connected with the Tianhe space station module about six hours after takeoff from the Jiuquan launch center in Gobi Desert.
- The three-man crew will spend three months on the Tianhe module, which is orbiting at some 340km to 380km above the earth. China is the third country after the former Soviet Union and the United States to carry out a manned mission on its own.
- This is the first of two manned space missions planned for this year, part of an intense schedule of launches aimed at completing the Chinese space station in 2022. At least five more missions are planned for the year, with the Shenzhou-13 manned mission, also carrying three astronauts, set for later this year.
- The three astronauts are the first to take up residency in the main living module and will carry out experiments, test equipment, conduct maintenance and prepare the station for receiving two laboratory modules next year.
- It was China's seventh crewed mission to space but marked a number of firsts for the country – the first manned one during the construction of China's space station, the first in nearly five years after the country's last manned mission in 2016 and China's longest crewed space mission to date.

Purpose of the Mission: It will help test technologies related to long-term astronaut-stays and health care, the recycling and life support system, the supply of space materials, extravehicular activities and operations, and in-orbit maintenance.

China's Space Station:

- China is not a participant in the International Space Station (ISS), largely as a result of US objections to the Chinese program's secrecy and close military ties. The ISS is a joint project

between five participating space agencies: NASA (United States), Roscosmos (Russia), JAXA (Japan), ESA (Europe), and b (Canada).

- However, China has been stepping up cooperation with Russia and a host of other countries, and its station may continue operating beyond the ISS, which is reaching the end of its functional life.

Other Recent Space Missions of China:

- **China's Mars Probe:** In May 2021 China's Tianwen spacecraft landed on Mars carrying a rover, the Zhurong. It will conduct scientific investigations into the planet's soil, geological structure, environment, atmosphere and water.
- **China's Moon Probe:** In November 2020, Chang'e-5 mission landed on the moon's less explored far side and brought back the first lunar samples by any country's space program since the 1970s.
- **China and Russia** have also unveiled an ambitious plan for a joint International Lunar Research Station running through 2036. That could compete and possibly conflict with the Multinational Artemis Accords (MAA). MAA is a blueprint for space cooperation that supports NASA's plans to return humans to the moon by 2024 and to launch an historic human mission to Mars.

IMPORTANT FACTS FOR PRELIM

New Norms on Hallmarking of Gold

Recently, the Ministry of Consumer Affairs, Food & Public Distribution made it mandatory for the hallmarking of gold jewellery, which will be implemented in a phased manner.

Key Points

About Hallmarking:

- The Bureau of Indian Standard (BIS), which operates the gold and silver hallmarking scheme in India, defines hallmarking as the "accurate determination and official recording of the proportionate content of precious metal in precious metal articles."
- So, it is a "guarantee of purity or fineness" of precious metal articles, which started in 2000.
- In India, at present two precious metals namely gold and silver have been brought under the purview of Hallmarking.
- The BIS certified jewellers can get their jewellery hallmarked from any of the BIS recognized Assaying and Hallmarking Centres (A&HC).
- Earlier, it was optional for the jewellers and thus only 40% of gold jewellery was getting hallmarked.

Implementation in a Phased Manner:

- In the first phase, gold hallmarking will be available only in 256 districts and jewellers having annual turnover above Rs. 40 lakh will come under its purview.
- A certain category of jewellery and items will also be exempted from the mandatory requirement of hallmarking. Jewellery for international exhibitions, jewellery for government-approved B2B (Business-to-Business) domestic exhibitions will be exempted from mandatory Hallmarking.

Need of Gold Hallmarking:

- India is the biggest consumer of gold. However, the level of hallmarked jewellery is very low in the country.
- The mandatory hallmarking will protect the public against lower caratage (the fraction of pure gold) and ensure consumers do not get cheated while buying gold ornaments. It will help to get the purity as marked on the ornaments.
- It will bring in transparency and assure the consumers of quality.
- It will weed out anomalies and corruption in the system of manufacturing of jewellery.

Bureau of Indian Standards

- BIS is the National Standard Body of India for the harmonious development of the activities of standardization, marking and quality certification of goods.
- **Standards Formulation:** BIS formulates Indian Standards in line with the national priorities for various sectors that have been grouped under 14 Departments like Chemicals, Food and Agriculture, Civil, Electro-technical, Electronics & Information Technology, etc.
- **BIS' International Activities:**
 1. BIS is a founder member of ISO (International Organization for Standardization) and is actively involved in the development of International Standards.
 2. India is represented in IEC (International Electro-technical Commission) through BIS. IEC is the world's leading organization for the preparation and publication of International Standards for all electrical, electronic and related technologies.

3. BIS is the National Enquiry Point for WTO -TBT (World Trade Organisation – Technical Barriers to Trade).

Other Initiatives:

- **BIS SDO Recognition Scheme:**
 1. To attain the One Nation One Standard vision of the Government of India, BIS launched a scheme which provides for Recognition of SDO (Standard Developing Organization).
- **Product Certification Scheme:**
 1. BIS operates a Product Certification scheme for ensuring compliance to Indian Standards. Presence of BIS standard mark (popularly known as ISI mark) on a product indicates conformity to the relevant Indian Standard.

2.Namami Gange Programme

Recently, an agreement was signed for Development of 35 MLD (Mega Liters per day) Sewage Treatment Plant in Maheshtala (City situated on the east bank of River Ganga), West Bengal under Namami Gange Programme. The project was signed under Hybrid Annuity PPP mode.

Key Points

Namami Gange Programme:

- Namami Gange Programme is an Integrated Conservation Mission, approved as a 'Flagship Programme' by the Union Government in June 2014 to accomplish the twin objectives of effective abatement of pollution and conservation and rejuvenation of National River Ganga.
- It is being operated under the Department of Water Resources, River Development and Ganga Rejuvenation, Ministry of Jal Shakti.
- The program is being implemented by the National Mission for Clean Ganga (NMCG), and its state counterpart organizations i.e State Program Management Groups (SPMGs).
- NMCG is the implementation wing of National Ganga Council (set in 2016; which replaced the National Ganga River Basin Authority - NGRBA).
- It has a Rs. 20,000-crore, centrally-funded, non-lapsable corpus and consists of nearly 288 projects.
- The main pillars of the programme are:
 2. Sewage Treatment Infrastructure
 3. River-Front Development
 4. River-Surface Cleaning
 5. Biodiversity
 6. Afforestation
 7. Public Awareness
 8. Industrial Effluent Monitoring
 9. Ganga Gram

The Ganga River System:

- The headwaters of the Ganga called the 'Bhagirathi' are fed by the Gangotri Glacier and joined by the Alaknanda at Devprayag in Uttarakhand.
- At Haridwar, Ganga emerges from the mountains to the plains.
- The Ganga is joined by many tributaries from the Himalayas, a few of them being major rivers such as the Yamuna, the Ghaghara, the Gandak and the Kosi.

3.Helpline for Cyber Fraud

The Ministry of Home Affairs has operationalised the national Helpline 155260 and Reporting Platform for preventing financial loss due to cyber fraud. The helpline was soft-launched on 1st April. The National Helpline and Reporting Platform provides a mechanism for persons cheated in cyber frauds to report such cases to prevent loss of their hard earned money. Also, a National Cyber Security Strategy 2020 is being formulated by the Office of National Cyber Security Coordinator at the National Security Council Secretariat.

Cyber Security

- **Cyber Security** is protecting cyber space including critical information infrastructure from attack, damage, misuse and economic espionage.
- **Critical Information Infrastructure:** According to Section 70(1) of the Information Technology Act, CII is defined as a "computer resource, the incapacitation or destruction of which, shall have debilitating impact on national security, economy, public health or safety".
- **Cyber Fraud:** It is the crime committed via a computer with the intent to corrupt another individual's personal and financial information stored online. It is the most common type of

fraud and individuals and organisations need to be vigilant and protect their information from fraudsters.

Key Points

About:

- The helpline has been made operational by the Indian Cyber Crime Coordination Centre (I4C), in coordination with the Reserve Bank of India, all major banks, payment banks, wallets and online merchants.
- The Citizen Financial Cyber Fraud Reporting and Management System has been developed by I4C to integrate Law Enforcement Agencies and Banks and Financial Intermediaries.
- The facility empowers both the banks and the police, by leveraging new-age technologies for sharing online fraud related information and taking action in almost real time.
- Since its soft launch, in a short span of two months, the helpline has assisted in saving more than Rs 1.85 crore.

Indian Cyber Crime Coordination Centre:

- The scheme to set up I4C was approved in October 2018, to deal with all types of cybercrimes in a comprehensive and coordinated manner.
- It has seven components:
 1. National Cyber Crime Threat Analytics Unit
 2. National Cyber Crime Reporting Portal
 3. National Cyber Crime Training Centre
 4. Cyber Crime Ecosystem Management Unit
 5. National Cyber Crime Research and Innovation Centre
 6. National Cyber Crime Forensic Laboratory Ecosystem
 7. Platform for Joint Cyber Crime Investigation Team.
- 15 States and Union Territories have given their consent to set up Regional Cyber Crime Coordination Centres.
- This state-of-the-art Centre is located in New Delhi.

Other Initiatives to Tackle Cybercrime:

- Draft Personal Data Protection Bill, 2018 (based on the recommendation of Justice BN Srikrishna Committee) to secure citizens data.
- Cyber Swachhta Kendra: The "Cyber Swachhta Kendra" (Botnet Cleaning and Malware Analysis Centre) is a part of the Government of India's Digital India initiative under the Ministry of Electronics and Information Technology (MeitY).
- Indian Computer Emergency Response Team (CERT-IN): It is an organisation of the MeitY, with the objective of securing Indian cyberspace. It is the nodal agency which deals with cybersecurity threats like hacking and phishing.

Related International Convention (Budapest Convention):

- The Council of Europe's (CoE) Cybercrime Convention, also known as the Budapest Convention is the sole legally binding international multilateral treaty on cybercrime. It coordinates cybercrime investigations between nation-states and criminalizes certain cybercrime conduct.
- It was opened for signature in 2001 and came into force in 2004.
- The Budapest Convention is supplemented by a Protocol on Xenophobia and Racism committed through computer systems.
- India is not a party to it. India recently voted in favour of a Russian-led UN resolution to set up a separate convention. The resolution seeks to set up new cyber norms considered as a counter alternative to the US backed Budapest Accord.

DAILY ANSWER WRITING PRACTICE

Qns. The role played by B R Ambedkar has helped in nation-building and continues to have a prominent impact on the present Indian socio-economic-political setup. Discuss.

Ans:

Introduction

BR Ambedkar's role as a social reformer, chairman of the draft committee of the Indian Constitution, and first law minister of the country is well-known. His contributions helped in nation-building and continues to have a prominent impact on the present Indian socio-economic-political setup.

Body

Major Contribution of BR Ambedkar

- **Father of Indian Constitution:** BR Ambedkar's legal expertise and knowledge of the Constitution of different countries was very helpful in the framing of the constitution.
- **Building a Just Society:** The Poona Pact (signed between Mahatma Gandhi & BR Ambedkar) assured a fair representation of the depressed classes in the public services while earmarking a portion of the educational grant for their uplift.
- **Role in Ensuring Gender Parity:** His advocacy for universal adult franchise ensured that women had the right to vote immediately after Independence.
- ✓ He also helped to establish the principle of "equal pay for equal work" irrespective of sex and maternity benefits.
- ✓ His advocacy of the Hindu Code Bill was a revolutionary measure towards ameliorating women's plight by conferring on them the right to adopt and inherit.
- ✓ **Distinguished Economist:** The Reserve Bank of India was conceptualized from the Hilton Young Commission's recommendation, which considered Ambedkar's guidelines laid out in The Problem of the Rupee: Its Origin and Its Solution.
- ✓ **Labour Leader:** Ambedkar was the voice of the Depressed Classes on every platform. As their representative at the Round Table Conference, he championed the cause of labor and improving the condition of peasants.

Conclusion

As India is about to celebrate the Azadi Ka Amrit Mahotsav to commemorate 75 years of Independence, it is imperative to recognise the role played by BR Ambedkar. However, today India is facing many socio-economic challenges such as casteism, communalism, separatism, gender inequality, etc. We need to find the Ambedkar's spirit within us, so that we can pull ourselves from these challenges.

DAILY QUIZ

Q1. With reference Republic of Rwanda, consider the following statements:

1. It is a landlocked country in central Africa.
2. It is located a few degrees north of the Equator.
3. It is bordered by Uganda, Tanzania, Burundi, and the Democratic Republic of the Congo.

Which of the above given statements is/are correct?

- a. 1 and 3 only
- b. 2 only
- c. 2 and 3 only
- d. 1, 2 and 3

Q2. In which one of the following groups are all the three countries members of Gulf Cooperation Council?

- a. Kuwait, Oman and Qatar
- b. Saudi Arabia, United Arab Emirates and Iraq
- c. Bahrain, Kuwait and Yemen
- d. Oman, Qatar and Iraq

Q3. The 'Geneva Convention' was in news recently, is related to

- a. Humane rules of war
- b. Net neutrality
- c. IPR waiver on vaccines
- d. Inter-country adoption

Q4. Which of the following pairs (Multipurpose projects/dam: River) is not correctly matched?

- a. Renukaji Dam Multipurpose Project: Yamuna river
- b. Bhadbhut project: Narmada river
- c. Kaleshwaram project: Godavari river
- d. Mekedatu project: Cauvery river

Q5. In India, in which one of the following types of forests is teak a dominant tree species?

- a. Tropical moist deciduous forest
- b. Tropical rain forest
- c. Tropical thorn scrub forest
- d. Temperate forest with grasslands
